

COVID-19: Temporary campus closure extended

Updated: May 15th, 2020

Please note that, due to the current state of COVID-19 in Montreal and the continuation of the various restrictions and insecurities around international travel, ALI is, regrettably, postponing its reopening date until further notice.

For any pathway students currently registered through ALI, we will work case-by-case to figure out the best arrangement possible in the current circumstances.

Please note that ALI is not offering an online program, and that immigration, pathway, testing, accommodation, insurance extensions, and other specialized support services are all suspended during our temporary campus closure.

We will provide further updates as more information becomes available.

We continue to appreciate your patience, cooperation, and understanding during this difficult time - thank you!

Please keep safe,

Sincerely,

ALI
